Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Claims 1-26, 28-32, and 34 are considered to be patentable over the prior art of record for the reasons set forth by applicant in the "Remarks" section of his amendment filed on 12/19/2005. In the Office action mailed on 9/27/2005, Examiner neglected to address the merits of claims 35-40. These claims are deemed to be patentable over the prior art of record. None of the prior art of record teaches or suggests a method of operating an arc welding system having a controller and a plurality of machines as set forth in claim 35, particularly the limitations associated with implementing two different computer programs based on two predetermined code types as set forth in the claim. Claims 36-40 are patentable over the prior art of record at least because they depend from claim 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
